# Digital Retouching is Amazing!

*It is simply amazing...* the things you can do today to enhance and improve photographs with computers—known as digital manipulation. We can do most anything but common requests include removing blemishes or acne, softening wrinkles around the eyes, removing flash reflections from eye glasses (if you choose not to take them off), enhancing background colors, converting a color image to black & white or sepia, etc. The fee for digital manipulation is \$75 per hour with a \$25 minimum per order (most orders take less than an hour or two in total).

Fill out the form below and we will give you an estimate before we proceed. Or you can give me a call to discuss any ideas you have.

Thanks... Monica
